EDUCATION

Ludhiana, Punjab

Guru Nanak Dev Eng. College

June 2021 – May 2025

Bachelor of Technology (Information Technology)

CGPA : 8.1(avg)

Experience

UI/UX Developer Intern

Promatics Technologies

Jan 2025 – March 2025

- Completed hands-on UI/UX design projects, mastering principles like user-centered design, wireframing, and prototyping. Developed responsive web interfaces to strengthen skills in Figma, HTML, and CSS.
- Focused on creating intuitive and visually engaging designs, ensuring consistency across components. Collaborated in design reviews and usability testing to enhance user experience and interaction quality.

React Intern

Novems Controls

Jul 2024 – Aug 2024

- Developed responsive interfaces using React.js and integrated RESTful APIs. Optimized front-end performance with techniques like code splitting and lazy loading.
- Worked with React's Context API and Redux for efficient state management. Ensured cross-browser compatibility and high-quality application performance.

React Training

Infosys SpringBoard

June 2023 - July 2023

- Completed an intensive React training, mastering concepts like component lifecycle and hooks. Built small-scale apps to improve JavaScript, JSX, and React Router skills.
- Focused on front-end architecture, including reusability and code best practices. Participated in peer reviews to enhance code quality and problem-solving abilities.

PROJECTS

- **Portfolio(2025)** :Built a responsive personal portfolio using Next.js, featuring smooth animations, modern UI/UX design, and interactive transitions. The project was focused on providing an engaging user experience while showcasing my work, skills, and design capabilities in frontend development.
- **Trail Blaze(2025)** :A Next.js-based travel web application featuring a Kanban Board and itinerary planning, fully UI/UX designed and developed by me for a Canadian client during my internship at Promatics Technologies.
- **LearniFy The Online Tutor (2024)** : Developed LearniFy, a MERN stack-based online tutoring platform offering courses, study notes, and mock tests (free and paid). Features include daily dynamic "Word of the Day" posters, real-time updates, and an interactive user interface for seamless learning.
- **InfyChat (2024)** : Developed InfyChat, a **MERN** stack-based chat application with **Cloudinary** integration for efficient data management, featuring advanced functionalities like **message scheduling**, **smart text messaging**, **end-to-end encryption**, and **Gemini integration**.

- **NewsMonkey (2023)** : Developed NewsMonkey, a React-based news aggregator app that pulls real-time news data using the NewsAPI. Learned how to effectively integrate APIs to fetch, display, and filter news articles dynamically within the app.

SKILLS

- | | | | | |
|---------|--------------|----------------|----------|-----------|
| • HTML5 | • JavaScript | • My-SQL | • React | • PowerBI |
| • CSS3 | • Chat-GPT | • GIT & Github | • Python | • Figma |

EXTRA CURRICULAR

Database & Technical Head Google's Developer Group (GNDEC)

- Engaged in **Google's Developer Group** 's D&T Team managing Google Forms and Excel data proficiently, while also contributing to events, fostering a dynamic learning environment, and enhancing **teamwork** and **leadership** skills.

Database & Technical team Computer Society Of India

- Engaged in CSI's D&T Team managing Google Forms and Excel data proficiently, while also contributing to events, fostering a dynamic learning environment, and enhancing **teamwork** and **leadership** skills.

Creative Team Member ITIAN Club GNDEC

- Designed posters and promotional materials using Figma, and edited videos for club events. Enhanced visual communication to effectively promote initiatives and strengthen the club's presence..
